EXPERIENCE

Web Developer / Trainer

Oct 2025 - Present

Jijau Software Pvt Ltd | Satara, Maharashtra

- Spearheaded end-to-end design, development, and hosting of 10+ custom web applications using Laravel and WordPress for external clients.
- Led full project lifecycle management, translating design concepts into functional, responsive websites with seamless deployment and server-side stability.
- Directed database management and technical leadership across large-scale WordPress installations, maintaining uptime and data integrity.
- Trained and mentored team members on Laravel and WordPress development best practices.

Application Developer

Mar 2025 - Sep 2025

Copeland India Pvt. Ltd (Emerson Climate Technologies) | Pune, Maharashtra

- Engineered enterprise-level web applications using PHP and Laravel, following MVC architecture and industry best practices.
- Built a Daily Production Reporting System with MySQL, streamlining data-entry workflows and reducing manual entry time.
- Implemented a barcode-based Rack & Pallet Management System enabling real-time inventory tracking and automated reporting.
- Optimized database queries, improving overall system performance and reliability.

Web Developer

Dec 2024 - Feb 2025

Freelance / Self-Employed | Satara, Maharashtra (Remote)

- Designed interactive UI elements including animated scroll effects, service highlight sections, and dynamic contact forms for 2+ client websites.
- Delivered responsive, clean designs ensuring smooth cross-device navigation, improving user retention and accessibility.
